Mission over Cuba

14 July 1967
b. COMIREX-M-2, para. 19, final
sentence, para. 20, third sentence.
c. COMIREX-M-3, para. 17.

1. In response to and in further implementation of actions recorded in the references, the CRS at its 25 July meeting assembled a list of secondary targets for NRO use in planning of a special H camera mission over Cuba for coverage of COMIREX target [REDACTED] (the previously designated primary target for such a mission). These targets are identified in Tab A. Targets 1 through 6 in the list were submitted initially by DIA, the remainder by CIA.

2. In light of CRS discussion of 25 July, the aforecited actions already taken on this matter, and on the basis of information regarding the photo requirements for these targets, as provided by the Acting Chairman of the Exploitation Subcommittee, CRS members are asked to review the following draft communication to NRO before the regular Committee meeting on 1 August.

"Supplementing the guidance previously given NRO for planning of a special H camera mission over Cuba for coverage of COMIREX target [REDACTED] (including the resolution and "look angle" requirements therefor), the CRS submits a list of nine additional but secondary COMIREX Cuba targets for H camera coverage on that mission. It is emphasized that these targets should be considered as "bonus" only to coverage

[redacted] the primary target. [redacted] resolution photography of these targets is desired. It is recognized, moreover, that most of these targets are not in eastern Cuba. The CRS requests, therefore, that optimum coverage of them be obtained at the resolution specified, in accord with certain other annotations set forth in the Tab, and as operationally feasible."

" The CRS will promptly transmit changes in this guidance should shifts in intelligence community needs prior to execution of the special mission so dictate. "
